PROFESSIONAL SUMMARY

Computer Science engineer and full stack web developer with **1.9 years of professional experience** building and maintaining production web applications end to end. Has delivered **10+ projects** across web and SaaS products, working on Next.js and React front ends with Node.js / Express back ends, AWS-hosted databases and REST APIs.

Comfortable owning a feature end to end: translating UI designs into responsive, accessible interfaces, modelling data and writing REST APIs, and shipping clean, maintainable code. Builds mobile apps in React Native in personal time and shares day-to-day HTML, CSS and JavaScript learning with a developer audience online.

CORE EXPERTISE

FRONT END

- Next.js & React JS
- Component-driven UI design
- Responsive layout systems
- JavaScript (ES6+), HTML5, CSS3

BACK END

- Node.js & Express.js
- REST API design
- AWS database services
- Authentication & roles

PRODUCT & WAYS OF WORKING

- Multi-tenant SaaS / EdTech
- Git-based team workflow
- Design-to-code handoff
- Debugging & code review

EXPERIENCE

Full Stack Developer

Present

Web & SaaS Product Development

- **Delivery:** Has built and shipped **10+ projects**, from marketing and client websites to multi-tenant SaaS platforms, covering both front end and back end.
- **Interface work:** Converts product designs into responsive, reusable Next.js and React components that stay consistent across screens and user roles.
- **APIs & data:** Develops REST endpoints, data structures and role-based access flows on Node.js and Express with AWS-hosted databases.
- **Quality:** Handles bug fixes, performance tuning and release support alongside the product and design team.

Web Development Intern — Technify

- Trained on practical web development workflows and contributed to client-facing website builds using HTML, CSS, Bootstrap and JavaScript.

TECHNICAL STACK

Next.js

React JS

React Native

Node.js

Express.js

AWS Database

REST APIs

Git & GitHub

SELECTED WORK

- **Classory** — full stack feature development on a live, multi-tenant learning platform, built with Next.js, Node.js, Express and AWS database services.
- **Esha Jobs (eshajobs.com)** — Next.js website for an overseas nursing recruitment consultancy, with dynamic job vacancy listings, an online application and enquiry flow and responsive service pages.
- **Spofi** — React Native music app built in personal time, with duo listening for two users on one session and AI-powered recommendations.
- **FuFI** — AI-powered money saving app in React Native, helping users track spending and build better savings habits.

EDUCATION

B.E., Computer Science and Engineering

P.A. College of Engineering and Technology, Pollachi
2019 – 2023 · CGPA 8.41

Full Stack Development Certification

Innovate Technologies, Velachery, Chennai
